## TERMS OF SALE

**All bids by mail.** We have over 3,000 customers who are interested in these sales. They live in every state of the union, and in some foreign countries. They can not all come to Freeport in person each month to attend an auction. In fact, not one per cent of them could do so. In fairness to those who live at a distance, and cannot attend a sale in person, we request all bids to be sent in advance of the sale, by mail.

**Coins will be bought below your bids** where other offers permit, as this is competitive bidding, executed in good faith.

Where two or more bids are exactly the same on any lot, or tied, the lot is sold to the first bid received at exactly his bid.

**No unlimited bids** will be accepted from anyone, at this sale. Mark your highest limit or bid on the bid sheet, and we will buy as much under this price, as other actual bids permit. **Get your bids in before the date of sale.** Don't wait until the last minute. Help us with our work and we will help you get something.

The usual charge of 5% will be made for executing your bids. No charge is made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.**

**Be certain that you bid on the lot you wish to buy.** We will correct errors and adjust claims, but you should not expect us to pay for **your mistakes. Be careful** in making your bids. Be sure that you bid on the lot you wish to buy, and **at so much per piece.**

**Bids must reach me by the morning of the sale.** Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

The price lists have to be set up and printed after the sale, and are mailed first class, usually about 15 days after the sale date.

Between the seller and buyer, my position in describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative by the collecting public.

**It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values.** It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector

acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

**The terms are prompt cash settlement after sale,** and no time given. Collectors who are not certain that they can pay promptly, are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

**Remit by money order, draft, check,** or in any way most convenient. **Stamps accepted for accounts that are below one dollar only.**

All coins and other items are guaranteed genuine, unless otherwise stated.

**Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece. Exception—where stated to bid for lot.**

**NOTE—A printed list of all the prices realized at this sale will be sent for fifty cents (50c). Send coin or stamps with your bids so as to reserve a price list, or if you prefer, we will add the cost to your bill of items purchased for you at this sale. Keep posted on coin values as they are today, and order a price list in advance of the sale. After the sale they cost \$1. Before, they are 50 cents.**

## UNITED STATES SILVER DOLLARS (The Bolender Collection)

NOTE: Having decided to retire from active business, or at least semi-retire from the field of numismatics, and move to California this summer, my collection of silver dollars is hereby offered at auction. The sale is absolute and there are no reserves on any piece.

This collection includes a total of 183 varieties of dollars dated before 1804, which is the largest, most nearly complete, and finest collection ever assembled by anyone in the world. It seems hardly necessary to say more, because collectors all over the United States have had opportunity to see the collection displayed at national conventions in Chicago, Philadelphia, New York, Boston, Washington, Milwaukee, and various other cities. It always attracted much attention and considerable comment. I can assure you that it was always a pleasure to exhibit the collection. It has required more than forty years to assemble this collection, as some varieties turn up only once in a life-time. I doubt very much if such a collection will ever be offered again. Certainly, no collection so complete has been offered in the past. The next best offering was the sale of the "World's Greatest Collection" by the Numismatic Gallery in New York in January 1945, when 125 varieties before 1804 were sold. The Haseltine collection sold in 1881 offered 111 varieties. The fourth best collection, the Fox collection, was sold in my 181st sale in September 1951, when 99 varieties before 1804 were sold. The silver dollars have become one of our most popular series, along with the large cents series, and they are in much demand, as reflected by the prices realized on both series at my 181st sale, some of these prices being shown in the back of this catalogue.

The fascinating series of this famous collection of our early dollars is the subject of a book published by Mr. Bolender in July 1950. This book describes and illustrates these coins, and should be in the library of every American collector. Interested bidders can see the plates in the book of the exact coins here listed, and together with this catalogue and a price list after the sale, this will be a complete and accurate guide to the early dollars. The book is 9¼ x 12¼ inches, printed on fine quality paper, handsomely bound in blue cloth, lettered in gold. Nine large pages of fine plates illustrate the very coins now to be sold. Prospective bidders should order a book now, and enjoy studying same before placing bids. The plates should be very helpful, to see the high quality of the coins.

The reference numbers used below refer to this book. THE UNITED STATES SILVER DOLLARS FROM 1794 TO 1803, the recognized standard authority on the subject. The condition of each coin is guaranteed, as with all coins in the past 182 Bolender sales, and collectors will not be disappointed, as to quality. The values are furnished only as a guide, and as there are no limits on any coins, you may bid higher or lower, knowing that your bids will be executed fairly at approximately 5% above the second high bid. Probably every active American collector would be proud to own at least one coin from this great collection. I invite you to try, and may good luck be with you, and the pride of ownership of specimens from this collection bring you pleasure.

The series of later dates and mints is nearly complete also, and the proofs are gems carefully selected from many pieces, without nicks or scratches or spots, and have not been cleaned.

The 51 different pattern dollars are most beautiful coins illustrating as they do the magnificent experimental designs and patterns presented. Many coins in this great collection are from other famous collections, including those of Stickney, Parmelee, Earle, Haseltine, Mougey, Newcomer, Col. Green, Jenks, and many others. The Bryan dollars have been attributed personally by the late Farran Zerbe, the authority on the subject.

1. **1776 American Colonial dollar**, CONTINENTAL CURRENCY (variety with one R in CURRENCY). Sun & dial, MIND YOUR BUSINESS. Rx. chain of 13 links with names of original colonies. AMERICAN CONGRESS WE ARE ONE. Designed by Benj. Franklin, this is our first dollar. Struck in pewter. Uncirculated, with considerable mint lustre. Rare. From the Treadway coll'n. sold by Elder, New York 1935. Value \$100.
2. **1794 silver dollar**. Very good. Lower stars on left are weak as usual. Rare. \$350.
3. **1795 silver dollar. B-1**. Flowing hair. Dated spaced 1 795. Reverse: two leaves under each wing of eagle. Edge lettered HUNDRED CENTS ONE DOLLAR OR UNIT on every piece until 1804. Extremely fine, considerable lustre, sharp even impressions. **Plate** (Refers to the Bolender book on silver dollars, where this identical coin was used for both obverse and reverse plates). From the great Stickney coll'n. later in Schwab collection. \$75.
4. **1795 silver dollar. B-2**. Flowing hair in six curls. First star pierces and separates lowest curl. Wide date, the 95 closer together than other figures. Slight wear on high portions of hair, and some adjusting marks on high part of eagle, done at mint in correcting planchet weight. Ex. fine, sharp stars. **Plate**. (This coin illustrated on plate I in the book.) From the Newcomer coll'n. \$75.
5. **1795 silver dollar. B-3**. Flowing hair in six curls, the third one from the top turns and touches the fourth curl. The only variety with 16 berries in wreath, 8 on each branch. Strictly very fine, sharp even impressions. Scarce variety, rarity 4. **Plate**. (Both obverse and reverse of this very coin used in book for illustrations on plate I.) Geo. M. Parsons coll'n. \$75.
6. **1795 silver dollar. B-4**. Flowing hair type. The 15th or last star is entirely under the bust, a feature which distinguishes this variety from all others. Rx. 17 berries. Extremely fine, bold and sharp, with some proof-like surface. The edge below date and corresponding edge on reverse show a very slight planchet defect. A splendid example for this scarce variety, from the Col. Green coll'n., later in the Gettys collection. This piece superior to the one shown on plate in my book, as it was recently purchased to improve my collection. \$85.

7. **1795 silver dollar. B-5.** Flowing hair. First star distant from curl. Variety with diagonal bar in field near uppermost curl. Rx. 3 leaves under each wing. Very fine, slightly scratched in right obverse field. A. M. Smith coll'n. \$40.
8. **1795 silver dollar. B-6.** Flowing hair, wide date, the 79 closest. Rx. 13 berries, 3 leaves. Some faint file marks appear on eagle's breast, done at mint to reduce planchet weight. Extremely fine. From the Lighthouse coll'n. **Plate.** (Both obverse and reverse of this coin shown on plate I in the Bolender book on dollars.) \$75.
9. **1795 silver dollar. B-8.** Flowing hair type, variety with head not well-centered, but too high and too far to left in relation to LIBERTY and stars. The last star farther from date than any other variety,  $4\frac{1}{2}$  mm. Reverse: a berry on outside of wreath slightly left of left stand of first A in AMERICA, and another berry on inside of wreath opposite second stand of same letter, distinguishes this 19-berry reverse from all others. A little wear on high parts of hair and eagle, but very fine and well-centered even impressions. Excessively rare. From the "World's Greatest Collection" sale by Numismatic Gallery, New York 1945. In my 45 years as a collector and dealer, I have seen only two specimens! However I handled one of these four times. Haseltine had seen but one, and it was not in his type-table sale catalogue of 1881, having been withdrawn from the sale and sold privately. **Plate.** \$150.
10. **1795 silver dollar. B-9.** A "mule" of obverse B-3 with reverse B-4. Extremely fine, even impressions. Frosty surface around head. Very rare variety. From the Parsons sale by H. Chapman 1914. **Plate.** (Reverse used for illustration in my book.) \$125.
11. **1795 silver dollar. B-9a.** Same as preceding, but outlines of portions of reverse (suction marks) appear on obverse. Very fine. Very rare. From Col. Green coll'n., later in the Gettys collection. \$75.
12. **1795 silver dollar. B-10.** Flowing hair. Reverse: two berries on outside of wreath on right between eagle's wing and ribbon bow. Extremely rare variety, rarity 6. Fine. Purchased from Guttag Bros., New York dealers many years ago. **Plate.** (Reverse shown on plate II.) \$50.
13. **1795 silver dollar. B-11.** Flowing hair. Obverse same as B-3 and B-9. Reverse differs from any other variety in arrangement of the 19 berries. Very fine. Excessively rare variety, and the only one I have found. Haseltine's specimen was only "good" and scratched in field, the only one he could find. A specimen listed in an important sale a few years ago as H-11 was purchased by me, but turned out to be H-2, and there was no H-11 in the sale. From the Earle sale, and later in the Schuyler coll'n. **Plate.** (Reverse illustrated on plate II in the book on dollars.) \$100.
14. **1795 silver dollar. B-12.** Flowing hair in 6 curls, the lowest curl passing through a point of first star, and continues to right, ending in a sharp point. Rx. 3 leaves under each wing. 13 berries. Extremely fine, mint lustre close to letters, stars, and wreath.

Extremely rare, rarity 6. From Elder sale, New York 1924. Finest of the few known specimens. **Plate.** (Obverse shown on plate I.) \$125.

15. **1795 silver dollar. B-12a.** Same as preceding, but variety with vertical die break extending from bust downward through 7 of date to border. Fine. This piece was lot 807 in the great Stickney sale held by Henry Chapman in 1907, and Mr. Chapman there described the break. Mr. Stickney was the first great collector in America. The only specimen I have ever seen. \$75.
16. **1795 silver dollar. B-13.** Flowing hair in six curls. Lowest curl barely misses a point of first star, but continues on to touch and slightly pass a second point of same star. The second curl from bottom turns downward pointing to space between two points of second star. Rx. 19 berries, same as B-1 and B-2. Several file marks on reverse done at mint to reduce planchet weight, but strictly very fine and without doubt it is the finest of the three known specimens. Haseltine had met with only a single specimen, and called it "probably unique." This piece is probably the Haseltine specimen, as its condition would indicate, and was later in the Col. Green collection. This variety was noticeably missing in the sale of the "World's Greatest Collection" sale held by the Numismatic Gallery in 1945. **Plate.** (Obverse shown on plate I.) \$150.
17. **1795 silver dollar. B-14.** Draped bust and hair tied with ribbon thus known as the "fillet bust." Reverse: the eagle is much smaller than on any of the preceding varieties. 7 berries. This piece was purchased as "uncirculated" but with magnifying glass you can see a pin-point nick before nose, and slight rubbing on highest portion of eagle's breast. It is a beautiful example, with considerable mint lustre. From the Lighthouse coll'n. The Atwater specimen uncirculated sold at \$157.50. **Plate.** (Both obverse and reverse plates in my dollar book are from this very coin.) \$100.
18. **1795 silver dollar. B-15.** Draped fillet bust similar to last, but variety with the bust more centered between the stars at left and those at right. Reverse similar to last, but only 6 berries in olive branch. Extremely fine, very nearly uncirculated. A beautiful dollar, sharply struck, splendid impressions. Bought from Henry Chapman, Philadelphia dealer, many years ago. **Plate.** (This coin used for both obverse and reverse in my book on early dollars.) \$125.
19. **1795 silver dollar. B-16.** New variety, not in Haseltine. Obverse from same die as B-1 and B-10. The reverse is new in the arrangement of the berries and leaves in the wreath, and is described in my book. Uncirculated, with proof surface, a few trivial nicks visible under a glass. Beautifully toned, and a magnificent example, and one of the rarest of all dollars. Rarity 8, the only specimen known, and I believe it to be unique! Purchased by me at an Elder sale in New York 20 years ago. A prominent collector who was also in attendance bid against me, and it brought seven times the starting bid, and a new record

for a 1795 dollar. The competition was the sensation of the entire auction sale. It is certainly worth more than any other dollar of this date. **Plate.** (Reverse of this coin was used for plate II in book.) \$400.

20. **1796 silver dollar. B-1.** Small date. Two points of first star touch curl. 15 stars. Reverse: small letters. Small eagle. Very fine. P. C. Clark coll'n. **Plate.** (Obverse shown on plate II.) \$50.
21. **1796 silver dollar. B-2.** Small wide date. Curl touches only one point of first star. Reverse: small letters. Very fine, sharp impressions. From Geo. M. Parsons coll'n. 1914. **Plate.** (This coin used for both obverse and reverse illustrations on plate II in my book on dollars.) \$60.
22. **1796 silver dollar. B-4.** Small wide date, the 96 closer together than the other figures. Lowest star on left does not quite touch hair. Reverse: large letters. Highest portions of hair and eagle show slight wear. Ex. fine, splendid impressions. From the Treadway coll'n. in 1924. **Plate.** (This coin used for both obverse & reverse in book.) \$60.
23. **1796 silver dollar. B-4a.** From same dies as last, but variety with curl on top of head defective, and the letters in LIBERTY are not bifurcated as on the preceding. Reverse: large letters. Very fine. Ex. rare. The only specimen I have found. Formerly in the Gable collection sold by Chapman, bought by John T. Reeder whose grand collection I purchased in 1940. **Plate.** (Obverse shown on plate II.) \$100.
24. **1796 silver dollar. B-5.** Large date. Small letters. Small die lump at right top of I in AMERICA does not touch C but extends about halfway down along I. Strictly very fine. Formerly in the great Stickney collection sold by H. Chapman in 1907, then going to the Schwab coll'n. where I obtained it. **Plate.** (This coin used for both obverse and reverse illustrations on plate II in my book on dollars.) A specimen only slightly better sold for \$100 in the "World's Greatest Collection" sale in 1945. \$75.
25. **1796 silver dollar. B-5a.** Same dies as last, but the die lump is now larger and extends well along the letter C. Extremely fine, bold even impressions. From the John G. Mills coll'n. sold by the Chapman Bros. in 1904. \$85.
26. **1796 silver dollar. B-5a.** Same dies as preceding but curious over-strike. The date and several stars and features of obverse appear on the reverse. Very fine. From the Col. Green coll'n., later in the Gettys collection, from whom I purchased it a few years ago for \$50.
27. **1796 silver dollar. B-5b.** Large date. Small letters. The die lump is very small, does not touch C in AMERICA, and touches only the right top of letter I. Early impressions from the dies. Extremely fine, choice and beautiful dollar, with considerable mint lustre. Very rare state of the die break, and only recently acquired by me, since the book's publication. \$90.
28. **1797 silver dollar. B-1.** Sixteen stars, 7 on right facing bust. Reverse: large letters. Lowest berry near ribbon bow is on

- inside** of wreath. Perfect dies. Extremely fine, strong impressions, but a little off center. From Treadway coll'n. sold in 1935 by Elder. **Plate.** (Both obverse and reverse shown on plate III.) \$60.
29. **1797 silver dollar. B-1a.** From same dies as last, but with die cracks through 97 of date, bust, and stars on right. Several other cracks from hair through several stars on left. Extremely fine, splendid impressions, considerable lustre. From the Newcomer coll'n. \$85.
  30. **1797 silver dollar. B-1b.** Similar to the preceding, but die breaks more pronounced and with additional cracks. Extremely fine, and as choice as the last. Really very rare as the total coinage for the year was 7776 dollars. From the Col. Green coll'n. \$85.
  31. **1797 silver dollar. B-1c.** From same dies as preceding but advanced stages of the die breaks, with numerous additional cracks, from 9th star down to ribbon, neck through chin, right field to 12th star, and others. Extremely fine, a beautiful piece. Jewett coll'n. \$75.
  32. **1797 silver dollar. B-2.** Sixteen stars, 7 facing. Reverse: **small letters** in legend. Fine. Very rare. **Plate.** (Reverse shown on plate III.) \$60.

Large planchet. Extremely fine, strong sharp impressions. The Stickney piece, later in the Schwab collection. \$85.
  34. **1797 silver dollar. B-3a.** From same dies as last, but LIBERTY not bifurcated, and smallest planchet. Extremely fine, beautiful even impressions, well-centered, even border milling all round both sides, barely uncirculated. Newcomer coll'n. \$90.
  35. **1797 silver dollar. B-3b.** From same dies as last. Letters only slightly bifurcated. Very fine. From Gettys coll'n. \$50.
  36. **1798 silver dollar. B-1.** Thirteen stars. Reverse: **small eagle.** Die breaks on reverse down through second T in STATES and through TES. Extremely fine. Reverse struck off center to the right. Bought from Henry Chapman. Rare and in demand for type sets. \$75.
  37. **1798 silver dollar. B-1a.** From same dies as preceding, but there is another break from border above last S in STATES through top of OF and center of AMERIC. Very rare. Rarity 5. Extremely fine. From Col. Green coll'n. **Plate.** (This coin was used for illustrations of both obverse and reverse in plate III.) \$85.
  38. **1798 silver dollar. B-2.** The only 1798 dollar with **15 stars.** Reverse, **small eagle.** This identical reverse die was used also in 1795, 1796, and 1797! Very fine. Very rare, rarity 5. **Plate.** (Both obverse and reverse shown in book.) A. M. Smith coll'n. \$65.
  39. **1798 silver dollar. B-2a. Fifteen stars, small eagle.** From same dies as the preceding piece, but with die break from throat downward between last star and bust to border. Fine and very rare. From Gettys coll'n., formerly in Col. Green coll'n. \$50.

40. **1798 silver dollar. B-3.** Thirteen stars, as on all following. Knobbed 9 in date. Large heraldic eagle as on all the following. Uncirculated, except for a few tiny spots, and minute nicks visible under a glass, and the reverse die was worn making UNUM weak in motto. Beautiful sharp impressions, mint lustre on obverse, and full proof surface on reverse. Recently obtained from same collection as last. Very rare so choice. \$100.
41. **1798 silver dollar. B-4.** Extremely rare variety, rarity 6. Lacking in "World's Greatest Collection." Ex. fine. Reverse shows adjusting marks done at mint. From Lighthouse coll'n. **Plate.** (This coin used for reverse of plate IV.) \$85.
42. **1798 silver dollar. B-5.** Knobbed 9. Reverse variety with 10 complete arrows and 3 heads without sticks. A vertical die break entirely across reverse. Fine. Excessively rare, rarity 7. This is the better of the two known specimens. Haseltine's piece was only fair. **Plate.** (Reverse of this coin illustrated on plate IV.) \$60.
43. **1798 silver dollar. B-6.** Knobbed 9. Point of 1 touches curl, and 8 very nearly touches bust. Reverse: only 10 perfect arrows and 2 sticks. Very fine. Strictly very fine. 47. **1798 silver dollar. B-8.** Stars on right very close to Y and bust. Long vertical die flaw in center of left obverse field. Reverse: **four berries** in branch. These berries are large, and this is the only 4-berry reverse. Very fine. **Plate.** (This coin illustrated on plate III, obverse, and plate V, reverse, in my book.) The specimen in World's Greatest Coll'n. was in same condition, and sold in 1945 for \$35.
48. **1798 silver dollar. B-8a.** From same die as last, but the dies are now shattered with breaks. Very good, two edge dents. V. rare. \$25.
49. **1798 silver dollar. B-9.** Compact, 8 close to bust, being a little nearer than 1 is from curl. Perfect dies, except that die shows wear on UNUM on eagle's ribbon. Ex. fine. band. Rx. UNITED STATES OF AMERICA ONE DOLLAR. Within wreath in 5 lines GOLOID. 1 GOLD, 24 SILVER, .9 FINE, 258 GRS. Size  $32\frac{1}{2}$  mm. or slightly larger than a half-dollar. Struck in copper. Milled edge. AW-1568. Brill. red proof. The proposed plan was to issue these coins in "goloid" metal, a new alloy of gold, silver, and copper in such proportions that the silver would bear to the gold a ratio of 16 to 1, so that the metals could not be separated, and thus make a legal tender of all debts and duties. The object was to destroy the rivalry between gold and silver. The dollar would thus be conveniently smaller and lighter in weight, but the full value would be there, as the gold and silver were to be in such proportions that two of the proposed "goloid dollars" would contain exactly a dollar's worth of gold, and a dollar's worth of silver. As the expense of parting the two metals would be costly, it was thought that the coins would not be melted down for use in manufactures. Not over 15 coined. \$50.

## COINS OF THE WORLD

A large and magnificent collection of all countries and periods from the 6th century B.C. to modern times is here presented in part. Some of the collection was sold in my 182nd sale last November. The group here presented consists of choice copper, nickel, and silver coins, and a few in other metals. This very important offering is by far the best collection of foreign copper coins and minor silver ever offered by me in my 183 sales! There are practically no duplicates, and the specimens have been carefully selected. We recommend interested collectors to avail themselves of the present opportunity.

### **COIN COLLECTORS' COLUMN OF COMMENTS**

**Thank you** very much for your kind interest and participation in my 182nd sale held Nov. 10th. More than 650 bid sheets were received, and we do appreciate your mailing them early, to avoid that last day rush, when mail is always heavy, and clerical work so great. I do want to thank all the buyers and those who wrote to me after the sale expressing their appreciation and satisfaction with the condition of the coins and bills they received. Because there were so many letters, I can print only a few of their comments this time.

From Wisconsin—"Again I have had good luck at your auction, thanks to you. Be sure to send me the next catalogue."

Pittsburgh, Pa.—"Sorry to hear you will discontinue your coin auctions. In my experience with many other auction sales and dealers, you certainly rank first in quality judgment and in kindness."

From Cincinnati, Ohio—"Just as expected I am very well pleased. Your classifications were most satisfactory."

From Kentucky—"All lots obtained by me in your past auctions were of the highest quality and they more than met the grading you specified."

From California—"I was certainly pleased with the items I received. The grading was very conservative and you saved me money on my bids. Thank you very much."

From Ohio—"The coins I received were really as described, and I hope to get more at the next sale."

From Chicago—"You are one of the few on which I always rely to do the best you can with the bids."

From Washington State—"I am sorry to hear you may hold no more large sales, for they usually contain such a lovely assortment of miscellaneous materials."

From Ohio State—"I am well-pleased with the ancient coins received, and hope to get some more. I like to deal with you."

From Oregon—"A nice group of half-dollars, and must say I was pleasantly surprised with their condition."

From a large dealer—"All coins received were very nice. Thanks."

From Texas—"Check enclosed. It's a pleasure to do business with you "sight unseen".

From New York—"Excellent lot of coins, and many of them are billed to me at less than my bids too."

From San Francisco—"As usual it was a nice lot of coins I received and I am very well satisfied with the prices and your grading."

From Kansas—"My results at your sales prove you are the best auction house in the United States."

From Oklahoma—"Check for \$583 enclosed for the nice group of coins I received, certainly beautiful large cents and early silver dollars. You have been very accurate in your coin descriptions."

From Ohio—"I am exceedingly well pleased with the conservative descriptions you have on the coins in the catalogue. And I appreciate your getting so many of them under my bids wherever possible."

**If you collect silver dollars,** there are thrills for you in this catalogue of the world's largest collection. Here are a few prices realized at my 181st sale of the Fox collection Sept. 8, 1951.

**This is a popular series** and always has been, and great interest is anticipated in the superior quality offering in this sale. I will appreciate with humble gratitude your co-operation in mailing your bid sheets early.

**This may be my last large sale.** I am planning to retire or at least semi-retire from such active business, and move to California sometime in the near future. I have held 183 sales which has been a life of hard work. But it has been very pleasant work because of the thousands of grand persons that have made up my clientele. I shall always cherish the memories of countless pleasant dealings. And I shall continue to collect and to deal in unusual and fine numismatic items at least for a while. Again I say THANK YOU.

THE UNITED STATES EARLY SILVER DOLLARS FROM  
1794 TO 1803

by M. H. Bolender

The only former reference work was Haseltine's list published in 1881, merely a pamphlet or sale catalogue with no plates. This new work follows Haseltine's numbers, but with additions and corrections, plus a simplification of descriptions and the important addition of illustrations of the eighty-four obverse and the seventy-five reverses. Quick-finding lists and helpful tables make attribution not only quick and easy, but accurate and pleasant.

The descriptive list is prefaced by a history of early silver dollars, and a loose-leaf valuation sheet is included quoting current prices of all varieties in five condition grades.

This book is the result of some 40 years' experience and collecting, during which time over 5,000 specimens were examined. A record of the frequency in which each variety appeared was kept, and the degree of rarity given in the text.

This attractive large volume, size 9¼ x 12¼ inches, is quality printed, and handsomely bound in blue cloth, lettered in gold.

The price is \$10.00 which is no more than the Haseltine reprints cost to-day (and those are with no plates). We believe you can make no better investment to-day, than by adding this useful book to your library, and if it does not bring you a great deal of pleasure also, your money will be cheerfully refunded upon return of the book.

**Send no money.** Just check your order on the bid sheet.

**Order to-day** so that you will have the book to study the detailed descriptions and the illustrations of all the 183 silver dollars from 1795 to 1803 that are to be sold in this sale, one of the greatest collections ever offered. After you have used the book, if you do not want to buy it, return the book, and you owe us nothing.

**Seems fair, doesn't it?**
